

QUALITY POLICY

Enerside Energy, S.A. ("Enerside") is a company committed to the continuous improvement of the company's internal processes, as well as to the social and environmental impacts that it generates, in all those areas and locations in which it has activity, presence and / or influence.

Enerside is a company whose economic activity focuses on the development, construction and operation of renewable electricity generation projects, mainly in South and Central America, the Caribbean and Spain. The operation is carried out directly by Enerside or by any company controlled by it in the different corporate forms legally in force ("Enerside Group"). In carrying out its activity, the Enerside Group engages with its own workers, local communities, suppliers, customers, business partners and other groups of interest. As a consequence of its business activity and its projects an impact is generated in the environment, both social, economic and environmental. One of the policy goals corporations is to improve these impacts.

The Corporate Policies contain the guidelines of good practices that govern the performance of Enerside and the companies that are part of the Enerside Group.

In application of the foregoing, the Board of Directors of Enerside is assigned the competence to design, evaluate and permanently review corporate governance and, specifically, to approve and update the Corporate Policies.

In exercising these responsibilities, the Board of Directors approves this Quality Policy (the "Policy"), which has been prepared taking into account the most demanding international standards.

1. Purpose and Objective

The main objective of the corporate Quality Policy is to provide an optimal service to all stakeholders (shareholders, employees, customers, suppliers, partners, etc.) in accordance with the corporate values of service, ethics and respect. Always guaranteeing that legal and other applicable requirements are met and satisfying the expectations of interested parties.

2. Scope of application

This Policy is applicable to all members of the management team and professionals of Enerside, the subsidiaries, branches and investee companies not integrated in Enerside over which Enerside has effective control.

In those subsidiaries in which Enerside does not hold a dominant position, Enerside will promote, through its representatives on its administrative bodies, the alignment of its policies with those of Enerside.

In addition, this Policy is also applicable, as appropriate, to joint ventures, temporary unions of companies and other equivalent associations, when Enerside assumes its management.

3. Basic principles of action

In order to comply with this Policy, the Enerside team has a solid commitment to continuously improve performance and strengthen stakeholder confidence.

In accordance with this Policy, Quality Objectives are established at all levels, monitoring the degree of compliance so that continuous improvement can be measured.

Main objectives:

- Give confidence to the fulfillment of the objectives of quality and profitability of the assets (IPP) to the shareholders and investors
- To be a company where people can develop personally and professionally in the best possible environment where there is a sense of belonging for a purpose, to improve the world in which we live
- Satisfy customers through a service committed to quality and trust
- Allow suppliers to have a stable and long-term relationship
- Develop environmentally sustainable, profitable and high quality projects for Enerside and its partners
- Have a transparent and responsible Corporate Governance in decision-making and in the governance of the company

Enerside, through its Quality Committee and Management Bodies, periodically reviews the quality management system, detects areas for improvement, and defines and implements the action plan to meet the Quality Objectives.

Consistent with the responsibility assumed, the company will provide the necessary resources to comply with this Policy.

4. Control and evaluation

The control of the application of this Policy corresponds to the Quality Committee.

Likewise, Enerside through its Sustainability Committee and the Management Bodies, periodically review the comprehensive management system, detect areas for improvement, and define and implements the action plan to meet the Quality Objectives.

The evaluation of the application of this Policy corresponds to the Quality Committee that, at least once a year, it will evaluate the compliance and effectiveness of this Policy.

5. Validity

This Policy was approved by the Board of Directors of Enerside Energy, SA on September 3, 2021.
