

QUALITY POLICY

Enerside Energy, SA ("Enerside") is a company committed to the continuous improvement of the company's internal processes, as well as the social and environmental impacts it generates, in all those areas and locations in which it has activity, presence and /or influence.

Enerside is a company whose economic activity is focused on the development, construction and operation of renewable electricity generation projects, mainly in Latin America, Italy, and Spain. The operation is carried out directly by Enerside or by any company controlled by it in the different corporate forms legally in force ("Enerside Group"). In the development of its activity, the Enerside Group establishes its relationship with its own workers, local communities, suppliers, customers, business partners and other stakeholders. As a result of its business activity and its projects, it generates an impact on the environment, both socio-economic and environmental. One of the objectives of corporate policies is to improve these impacts.

The Corporate Policies contain the good practice guidelines that govern the actions of Enerside and of the companies integrated in the Enerside Group.

Pursuant to the foregoing, Enerside's Board of Directors is empowered to permanently design, assess and review corporate governance and, specifically, to approve and update Corporate Policies.

In the exercise of these responsibilities, the Board of Directors approves this Quality Policy (the "Policy"), which has been prepared taking into account the most demanding international standards.

1. Purpose

The main objective of the corporate Quality Policy is to provide optimal service to all stakeholders (shareholders, employees, customers, suppliers, partners, etc.) in accordance with the corporate values of service, ethics and respect, always guaranteeing that the legal requirements and other applicable requirements are met as well as the expectations of all interested parties.

2. Scope

This Policy is applicable to all members of the management team and professionals of Enerside, the subsidiaries, branches and non-Enerside investee companies over which Enerside has effective control.

In those affiliated companies in which Enerside does not hold a dominant position, Enerside will promote, through its representatives in its administrative bodies, the alignment of their policies with those of Enerside.

3. Basic principles of action

To comply with this Policy, the Enerside team has a solid commitment to continuously improve performance and reinforce the confidence of the interested parties.

In accordance with this Policy, Quality Objectives are established at all levels, monitoring the degree of compliance so that this improvement can be measured on an ongoing basis.

Main objectives:

- Provide shareholders and investors with confidence that the objectives of quality and return on assets (IPP) are met.
- To be a company where people can develop personally and professionally in the best possible environment where there is a sense of belonging for a purpose, to improve the world in which we live.
- Satisfy customers through a service committed to quality and reliability confidence.
- Allow suppliers to have a stable and long-term relationship.
- Develop environmentally sustainable, profitable and high quality projects for Enerside and its partners.
- Have a transparent and responsible Corporate Governance in decision-making and in the overall governance of the company.

Enerside, through its Quality, Environment and Health and Safety Committee (hereinafter "Quality Committee") and the Management Bodies, periodically reviews the quality management system, detects areas for improvement, and defines and implements the action plan to meet the Quality Objectives.

Consistent with the responsibility assumed, the company will provide the necessary resources needed to comply with this Policy.

4. Control and evaluation

The control of the application of this Policy corresponds to the Quality Committee,

Likewise, Enerside, through its Sustainability Committee and the Management Bodies, periodically reviews the integrated management system, detects areas for improvement, and defines and implements the action plan to meet the Quality Objectives.

The evaluation of the application of this Policy corresponds to the Quality Committee, which, at least once a year, will evaluate the compliance and effectiveness of this Policy.

5. Validity

This Policy was approved by the Board of Directors of Enerside Energy, SA on July 29, 2022.
